**MANAGEMENT'S DISCUSSION AND ANALYSIS  
DELTA COLLEGE  
YEAR ENDED JUNE 30, 2005**

The discussion and analysis of the financial statements of Delta College (the College) provides an overview of the College's financial activities for the years ended June 30, 2005, 2004 and 2003. Management has prepared the financial statements and the related footnote disclosures along with the discussion and analysis. Responsibility for the completeness and fairness of this information rests with the College's management.

**Using this Report**

These financial statements are prepared in accordance with the Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*. The financial statements are prepared under the accrual basis of accounting, whereby revenues and assets are recognized when the service is provided and expenses and liabilities are recognized when others provide the service, regardless of when cash is exchanged. Capital expenditures are capitalized on the Balance Sheet instead of recording as an expense, and depreciation is recorded.

Activities are reported as either operating or nonoperating in accordance with the GASB Statement No. 35. Charges for services are recorded as operating revenues. Essentially all other types of revenue, including state appropriations and property tax levies are nonoperating. A public community college's reliance on state funding and local property taxes will result in reporting an operating deficit.

This annual financial report complies with these requirements and includes this management's discussion and analysis, the report of independent auditors, the financial statements, notes to financial statements and supplemental information similar to commercial enterprises and private-sector institutions.

Over time, increases or decreases in net assets provide one indication of the financial health of an organization. To assess the overall health of the College, many other non-financial factors need also be considered such as trends in enrollment, condition of facilities, attention to workforce needs, success of graduates, and the strength of the faculty and staff.

**Financial Highlights**

The College's financial position improved during both fiscal years ended June 30, 2005 and 2004. In 2005, the College's net assets increased \$4.8 million, or 4%, over the previous year; whereas 2004 increased \$13.6 million or 12%. The increases in both years are primarily attributable to capital investment in the College facilities through renovation projects and the related financing activities. In particular, the significant 2004 increase was due almost entirely to the substantial completion of the final phase of the \$45 million Renovation II capital construction project. The State of Michigan funded \$17.8 million, a majority of which was received during the fiscal year, and the balance from a special .5 mill levy that ended in fiscal year 2004 in addition to College reserves. The 2005 increase also was partially attributable to endowment gifts, with an increase in such nonexpendable assets of \$1.7 million.

**Summary of Selected Financial Data – Continued**

During the year ended June 30, 2005, current assets increased \$5.2 million, primarily in liquid assets consisting of cash and short-term investments. Much of this increase was directly related to a corresponding decrease of approximately \$3.5 million in long-term investments in anticipation of continued rise in interest rates. These changes combined with a \$1.8 million increase in capital assets and a decrease in liabilities of \$1.2 million, both primarily related to the close-out of the College's Renovation II capital construction projects, reflected the overall \$4.8 million increase in net assets.

Current assets decreased during the year ended June 30, 2004 as the State of Michigan funded its portion of the Renovation II capital project eliminating the \$11.0 million project related receivable recorded as of June 30, 2003. The receipt of project funds from the State brought greater certainty to cash flow management and long term assets increased as cash reserves were invested in bank certificates of deposit and government agency obligations of slightly longer maturities.

The following summarizes the major components of the College's operating results for the years ended June 30, 2005, 2004 and 2003, in millions:

**Operating Revenue**

Operating revenue includes all transactions that result in the sales and/or receipts from providing goods and services such as tuition and fees and food service and bookstore operations. In addition, certain federal, state, and private gifts and grants are considered operating if they are not for capital purposes and are considered a contract for services or are program-specific.

Operating revenue changes are highlighted by the following factors for the year ended June 30, 2005:

- Academic tuition and fee rates were increased 5% and enrollment totaled 202,667 credit hours, an increase of 1.4%. For the year, 81% of academic credit hours were in-district and 19% out of district.
- Of the \$19.5 million in Tuition and Fees, which was offset by \$4.2 million in scholarship allowances, and \$12.2 million in Grants and Contracts operating revenue, Corporate Services provided administration, education and training of \$4.9 million and \$2.3 million, respectively, both representing declines from the previous year levels.
- The Auxiliary services revenue consists primarily of Bookstore sales of \$4.5 million, which had offsetting scholarship allowances approximating \$1.1 million, and Food and Conference Services sales of \$760,000, both up slightly.

**Operating Revenue - Continued**

Operating revenue changes are highlighted by the following factors for the year ended June 30, 2004:

- Academic tuition and fee rates were increased 6% and enrollment totaled 199,836 credit hours, an increase of 2.2%. For the year, 82% of credit hours were in-district and 18% out of district.
- Of the \$19.6 million in Tuition and Fees, which was offset by \$3.8 million in scholarship allowances, and \$12.9 million in Grants and Contracts operating revenue, Corporate Services provided administration, education and training of \$5.6 million and \$3.0 million, respectively.
- The Auxiliary services revenue consists primarily of Bookstore sales of \$4.3 million, which had offsetting scholarship allowances of \$990,000, and Food and Conference Services sales of \$670,000, both up slightly.

The following is a graphic illustration of operating revenues by source for the years ended June 30, 2005, 2004 and 2003:

**Operating Expenses**

Operating expenses are all the costs necessary to perform and conduct the programs and primary purposes of the College.

Operating expense changes are highlighted by the following factors for the year ended June 30, 2005:

- General salary increases approximated 4% after the freeze in the previous year. Medical insurance costs increased approximately 8% after reductions in benefit design, and required contributions to the Michigan Public School Employees' Retirement System increased by nearly 15% to a rate of 14.87% of eligible salary.
- The above increases in expenditures were mitigated by reduced spending on capital maintenance in Public Services and Facilities as compared to fiscal year 2004 when the multi-year Digital Conversion and Renovation II Projects were substantially completed.

**DELTA COLLEGE**  
**YEAR ENDED JUNE 30, 2005**

**Operating Expenses - Continued**

Operating expense changes are highlighted by the following factors for the year ended June 30, 2004:

- In response to reductions in State appropriations, a Budget Reduction plan was implemented which included the elimination of 27 administrative and support positions and the reduction of many more. Graphic Design Services, Health Services, and the Surgical First Program were eliminated, and reductions were made in Campus Safety and Security, marketing, faculty release time, library hours of operation, employee awards, equipment, supplies, professional development, travel, memberships, subscriptions and other areas.
- Salaries were frozen for the year.
- Medical insurance rates increased 11%, and required contributions to the Michigan Public School Employees' Retirement System were artificially frozen at the existing rate of 12.99% of salaries in consideration of the reductions in state appropriations.

**Nonoperating Revenues**

Nonoperating revenues are all revenue sources that are primarily non-exchange in nature. They consist primarily of state appropriations, property tax revenue, investment income (including realized and unrealized gains and losses), gifts and grants, and contracts that do not require any services to be performed.

Nonoperating revenue changes are highlighted by the following factors for the year ended June 30, 2005:

- State appropriations were originally enacted at \$13.1 million, which approximated a \$300,000 increase over the prior year appropriations; however Governor's Executive Orders issued during the year reduced the actual appropriations by \$100,000. The College also qualified for the tuition restraint incentive during fiscal year 2004 and thus received a supplemental appropriation from the State in the amount of \$400,000. These funds were reserved in the Plant Fund to assist in funding the continuing campus renovation projects as determined in accordance with the College's Five-Year Capital Outlay Master Plan.
- The taxable value of property within the district increased 3.3% for the year for a total levy of \$21.8 million. Fiscal year 2004 was the final year of a special three year .5 mill dedicated millage to fund the Renovation II capital project and without this special levy in fiscal year 2005, property tax collections in total were less than in 2004.
- New gifts to the College during the year provided \$1.7 million non-operating revenue.

Nonoperating revenue changes are highlighted by the following factors for the year ended June 30, 2004:

- State appropriations were originally enacted at \$13.3 million, a reduction of 10% from the prior year original appropriations. Additional executive order cuts were issued mid-year reducing the actual appropriations for the year by another \$583,800, or another 4.4%.
- The taxable value of property within the district increased 2.4% for the year. Of the \$26.3 million property tax levy, \$21.1 million was for general operations and \$5.1 million was for the dedicated millage to fund the Renovation II capital project.
- Earnings and gains in the realized and unrealized market value of endowment assets added \$1.5 million to investment income for the year.

**Other Revenue**

Other revenue consists of items that are typically nonrecurring, extraordinary, or unusual to the College. Examples would be state capital appropriations, additions to permanent endowments, and transfers from related entities.

Changes in other revenues are highlighted by the following factors for the year ended June 30, 2005:

- In the final year of the Renovation II capital project, the College recognized state capital appropriations of \$472,000.
- New gifts to the College during the year provided \$601,000 in additions to permanent endowments.

Changes in other revenues are highlighted by the following factors for the year ended June 30, 2004:

- State capital appropriations of \$6.2 million were recorded as part of the total \$17.8 million match by the State of Michigan for the \$45 million Renovation II capital project.
- Capital gifts and grants of \$347,000 were recorded for the Broadcasting Digital Conversion and \$281,000 in gifts were added to the permanent endowment.

**Statement of Cash Flows**

The primary purpose of the Statement of Cash Flows is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also helps users assess:

- The ability to generate future net cash flows
- The ability to meet obligations as they come due
- Needs for external financing

The following summarizes the major cash flow components for the College for the years ended June 30, 2005, 2004 and 2003, in millions:

	<b>2005</b>	<b>2004</b>	<b>2005-2004 Change</b>	<b>2003</b>	<b>2004-2003 Change</b>

**YEAR ENDED JUNE 30, 2005**

**Statement of Cash Flows - Continued**

The College realized a \$4.3 million decrease in cash during the year ended June 30, 2005, with the majority relating to a \$4.4 million decrease in local property taxes due to the prior year completion of a .5 mill three-year renovation levy that was dedicated to the Renovation II capital projects.

For the year ended June 30, 2004 the College's liquidity was stabilized with receipt of nearly \$17 million in state appropriations for the Renovation II capital project, a major portion of which had been a receivable at the prior year end. The receipt of these funds also brought greater certainty to cash flow management allowing the College to invest its cash reserves.

**Capital Assets**

At June 30, 2005, the College had \$88.3 million, net of accumulated depreciation of \$30.6 million, invested in capital assets. Depreciation charges for the year totaled \$3.2 million. Details of these assets, shown net of accumulated depreciation, as of June 30, 2005, 2004 and 2003 are as follows:

	<b>2005</b>	<b>2004</b>	<b>2005-2004 Change</b>	<b>2003</b>	<b>2004-2003 Change</b>
Land and Improvements	\$ 2.4	\$ 2.5	\$ (.1)	\$ 1.9	\$ .6
Infrastructure	2.0	2.2	(.2)	.9	1.3
Buildings	76.9	77.3	(.4)	37.4	39.9
Furniture and Equipment	3.6	3.8	(.2)	4.0	(.2)
Construction in Progress	3.4	.7	2.7	28.9	(28.2)
Totals	<u>\$ 88.3</u>	<u>\$ 86.5</u>	<u>\$ 1.8</u>	<u>\$ 73.1</u>	<u>\$ 13.4</u>

In accordance with the College's Five-Year Capital Outlay Master Plan, the College began a \$5.8 million project during the year ended June 30, 2005 which included renovations to the existing H-wing, J-wing and East Courtyard to enhance and create twelve general classrooms and computer training laboratories and to re-design instructional support centers and general faculty offices. This project was funded entirely by institutional resources, including allocations from accumulated Plant Fund reserves.

With substantial completion of the Renovation II capital project during the year ended June 30, 2004, construction in progress was significantly reduced from 2003 and investment in buildings was increased accordingly. The project included a new Automotive and Technical Trades Center, a renovated Fitness, Recreation and Aquatics Center, and renovations to existing classroom buildings, offices, Lecture Theater and auxiliary and general service support areas. Of the \$45 million project cost, the State of Michigan funded \$17.8 million and the College the remaining \$27.2 million through a special 3-year .5 mill voter approved property tax levy and reserved operating funds.

**Debt**

The College has no debt.

**DELTA COLLEGE**  
**YEAR ENDED JUNE 30, 2005**

**Economic Factors That Will Affect The Future**

The economic position of the College is closely tied to that of the State of Michigan. For fiscal year 2005-2006 state appropriations were again frozen although no tuition restraints were imposed by the State as in 2004-2005. With fiscal constraint, the college was able to keep tuition and fees as low as possible with an in-district rate increase of 5%. Excess contact hour course fees were also increased in order to fund the cost of implementing the faculty load equity plan, in which the ratio of lab to lecture classroom hours were increased from .8:1 to 1:1 to match national trends. As enrollments have increased, state funding has declined and strong spending restraints have been necessary to hold down tuition. In addition to national concerns of rising medical costs, state mandated contributions to fund the medical component of the state pension fund is of growing concern to public schools and colleges in the State of Michigan. State mandated pension contribution rates for FY05-06 were established at 16.34% of eligible payroll, a 10% increase up from 14.87%, and are expected to equal 20% by FY07-08.

Local support of the College remains strong with enrollment growth and a relatively stable property tax base. Current financial plans and recent capital investments have strategically prepared the College to pursue its mission as a learning college defined by the following Vision for Delta College:

“Delta College is a learning centered institution that focuses on the diverse post-secondary learning needs of the community. The College provides quality learning opportunities and recognizes learning can take place 24 hours a day, every day, in and out of the classroom, and on and off campus. Learning is our primary measure of success.”

State fiscal problems will likely continue for some years. The College is prepared to face the significant challenge of meeting operating costs and serving the increased demand for services. The College will continue to provide excellent learning opportunities and great value for the educational dollar to create positive futures for the students and communities it serves.

## Report of Independent Auditors

Board of Trustees  
Delta College

We have audited the accompanying financial statements of Delta College (the College) as of and for the year ended June 30, 2005. These financial statements are the responsibility of the College's management. Our responsibility is to express an opinion on these financial statements based on our audit. The prior year information has been derived from the College's June 30, 2004 financial statements, which were audited by other auditors whose report dated September 30, 2004 expressed an unqualified opinion on those financial statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the 2005 financial statements referred to above present fairly, in all material respects, the financial position of Delta College as of June 30, 2005 and the changes in its financial position and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 7, 2005 on our consideration of Delta College's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, grants and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

The Management's Discussion and Analysis (MD&A) on pages 1 to 10 is not a required part of the basic financial statements but is supplemental information required by the Governmental Accounting Standards Board. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of this supplemental information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the Delta College financial statements. The other supplemental information as identified in the table of contents, is presented for purposes of additional analysis and are not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, if fairly presented in all material respects in relation to the financial statements taken as a whole.

**NOTES TO FINANCIAL STATEMENTS**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 1. SIGNIFICANT ACCOUNTING POLICIES**

**Reporting Entity**

Delta College is a Michigan community college whose financial statements have been prepared in accordance with the generally accepted accounting principles as applicable to public colleges and universities outlined in Governmental Accounting Standards Board (GASB) Statement No. 35, *Basic Financial Statements – and Management’s Discussion and Analysis – for Public Colleges and Universities*, and the *Manual for Uniform Financial Reporting – Michigan Public Community Colleges, 2001*.

The College reports as a Business Type Activity, as defined by GASB Statement No. 35. Business Type Activities are those that are financed in whole or in part by fees charged to external parties for goods or services.

The accompanying financial statements have been prepared in accordance with criteria established by GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational or financial relationships with the College. Based on application of the criteria, the Delta College Foundation discussed in Note 11 is included in the College’s reporting entity.

Significant accounting policies followed by Delta College are described below to enhance the usefulness of the financial statements to the reader:

**Accrual Basis**

The financial statements of Delta College have been prepared on the accrual basis of accounting, whereby revenue is recognized when earned and expenditures are recognized when the related liabilities are incurred and certain measurement and matching criteria are met. In accordance with GASB Statement No. 20, the College is required to follow all applicable GASB pronouncements. In addition, the College should apply all applicable Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board (APB) Opinions and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989 unless those pronouncements conflict with or contradict GASB pronouncements. The College has elected not to apply FASB pronouncements issued after November 30, 1989.

**Cash and Cash Equivalents**

Cash and cash equivalents consist of all highly liquid investments with an initial maturity of three months or less.

**Investments**

Investments are recorded at fair value, based on quoted market prices.

**Inventories**

Inventories are stated at the lower of cost or market using the first-in, first-out method.

**NOTES TO FINANCIAL STATEMENTS - Continued**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 1. SIGNIFICANT ACCOUNTING POLICIES – Continued**

**Capital Assets**

Capital assets are recorded at cost or, if acquired by gift, at the fair market value as of the date of acquisition. Expenditures for maintenance and repairs are expensed as incurred. Depreciation is calculated on property and equipment using the straight-line method over the estimated useful lives of the assets. *The American Health Association's Estimated Useful Lives of Depreciable Hospital Assets* was utilized as a guide in establishing useful lives of the College's property and equipment.

**Revenue Recognition**

State appropriations for operations are recognized as revenue on a proportionate basis over the period for which they are appropriated (see Note 5). Restricted Fund revenues are recognized only to the extent expended. Revenues received prior to year-end that are related to the next fiscal year are recorded as unearned revenues. As of June 30, 2005 and 2004, unearned tuition and fee revenue for the summer semester, which begins in July and ends in August, was \$483,749 and \$555,124, respectively.

**Gifts and Pledges**

Gifts are recorded when received. Voluntary nonexchange transactions (pledges) are recognized in accordance with the GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. GASB Statement No. 33 requires recognition of the entire pledge in the first period that use is permitted and all applicable eligibility requirements have been satisfied. Such pledges are recorded at their discounted present value, net of allowance for uncollectible pledges.

**Internal Service Activities**

Revenue and expenses related to internal service activities approximating \$779,000 and \$724,000 for 2005 and 2004, respectively, have been eliminated. These activities include the College's bookstore, food service, fitness and recreation center, printing and copy services, vehicles, farmhouse, and planetarium gift shop and conference services.

**Compensated Absences**

Compensated absences represent the accumulated liability to be paid under the College's current vacation policy. Under the College's policy, employees accrue vacation on a bi-weekly basis at a rate that is dependent on the employee's pay class.

Total Unrestricted Net Assets	<u>\$ 31,072,532</u>	<u>\$ 29,899,609</u>

**NOTE 2. CASH AND INVESTMENTS**

The College considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. The College considers all investments maturing within one year or less as of the balance sheet date to be short-term. The College's deposits and investments are included on the balance sheet at June 30, 2005 and 2004 under the following classifications:

	<u>2005</u>	<u>2004</u>
Cash and cash equivalents	\$ 8,057,893	\$ 12,367,704
Short-term investments	15,673,729	6,301,099
Long-term investments	<u>12,089,983</u>	<u>15,581,014</u>
Total	<u>\$ 35,821,605</u>	<u>\$ 34,249,817</u>

**NOTES TO FINANCIAL STATEMENTS - Continued**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 2. CASH AND INVESTMENTS – Continued**

The amounts in the previous chart are classified in the following categories:

	2005	2004
Bank deposits (checking accounts, savings accounts and certificates of deposit)	\$ 23,194,853	\$ 22,345,298
Investments in securities and similar instruments	12,588,666	11,873,676
Petty cash and cash on hand	38,086	30,843
Total	<u>\$ 35,821,605</u>	<u>\$ 34,249,817</u>

**Bank Deposits**

The above deposits at June 30, 2005 and 2004 were reflected in the accounts of the bank (without recognition of checks written but not cleared, or of deposits in transit) at \$24,530,900 and \$23,201,674, respectively. Of these bank deposits, \$733,565 and \$801,855, respectively, was covered by federal depository insurance and the remainder was uninsured and uncollateralized. The College believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the College evaluates each financial institution within which it deposits College funds and assesses the level of risk of each. Only those institutions with an acceptable estimated risk level are used as depositories.

**Investments-Excluding Endowment Fund Investments**

**Credit Risk** – Credit Risk is the risk than an issuer or other counterparty to an investment will not fulfill its obligations. The College's policy for reducing credit risk is to invest surplus funds, excluding Endowment Fund monies, in accordance with the provisions set forth in Michigan Public Act 331 of 1996, as amended through 1997. This Act allows the College to invest in: bonds, bills or notes of the United States or its agencies; obligations of the State of Michigan; corporate commercial paper rated prime by at least one of the standard rating services; bankers acceptances issued by and certificates of deposit of financial institutions which are members of the Federal Deposit Insurance Corporation; mutual funds and investment pools that are composed of authorized investment instruments; and certain repurchase agreements. The College does not have a formal investment policy further limiting its investment options. Endowment Fund investments are subject to a separate investment policy which is discussed in detail later in this footnote.

**Interest Rate Risk** - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The College does not have a formal policy limiting investment maturities; however, the College manages its exposure to interest rate risk by generally limiting investment maturities to less than three years.

**NOTES TO FINANCIAL STATEMENTS - Continued**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 2. CASH AND INVESTMENTS – Continued**

As of June 30, 2005, the College had the following investments and maturities (excluding the Endowment Fund):

Investment Type	S&P Quality Ratings	Fair Market Value	By Maturity		
			Less Than One Year	1-3 Years	More Than 3 Years
Certificates of Deposit	N/A	\$ 15,673,729	\$ 15,673,729	\$ -	\$ -
U.S. Agency Securities *	AAA	3,977,400	-	1,976,400	2,001,000
Total Investments		<u>\$ 19,651,129</u>	<u>\$ 15,673,729</u>	<u>\$ 1,976,400</u>	<u>\$ 2,001,000</u>

\*All agency securities held are callable.

**Concentration of Credit Risk** – Concentration of credit risk is the risk of loss attributed to the magnitude of the organization's investment in a single issuer. The College does not have a policy limiting the amount the College is allowed to invest in any one issuer; however, the College evaluates each issuer within which it invests College funds with and assesses the level of risk of each. The College invests with only those issuers with an acceptable estimated risk level.

The College's investments at June 30, 2005 were invested as follows:

Issuer	Fair Market Value	Percentage of Total
Federal National Mortgage Association	\$ 3,977,400	20%
Ann Arbor Commerce Bank	4,569,589	23%
Capital National Bank	2,025,108	11%
Independent Bank	5,124,305	26%
Standard Federal Bank	1,010,295	5%
Wolverine Bank	2,944,432	15%
Total Investments	<u>\$ 19,651,129</u>	<u>100%</u>

**Custodial Credit Risk** – Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the College will not be able to recover the value of the investments that are in the possession of an outside party. The College does not have a formal policy addressing custodial credit risk; however, all of the College's investments are issued in the name of the College. Custody of the College's certificates of deposit remains with the financial institutions from which they were purchased, while the FNMA notes are held in safekeeping by National City Bank.

**NOTES TO FINANCIAL STATEMENTS - Continued**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 2. CASH AND INVESTMENTS – Continued**

**Endowment Fund Investments**

**Credit Risk** – The College has attempted to mitigate credit risk associated with Delta College Endowment Fund (The Fund) investments by contracting with Smith Barney (a division of Citigroup Global Markets Inc.) to manage the investments of The Fund. The College has established a formal investment and distribution policy that Smith Barney must adhere to in their management of the Endowment Fund. The investment and distribution policies of the Endowment Fund, as well as the investment returns, are established, monitored and evaluated by the College's Investment Advisory Committee, which reports directly to the Board of Trustees.

The Delta College Endowment Fund Investment and Distribution Policy limits investment of Endowment Fund monies to the following instruments: bonds, notes or treasury bills of the United States, or its agencies; investment grade corporate bonds; certificates of deposit of institutions which are members of the Federal Deposit Insurance Corporation; commercial paper rated prime by Moody's Investor Services and/or Standard & Poor's Corporation; certain bankers acceptances; convertible securities, bonds and preferred stocks; common stock traded on United States exchanges; foreign equity investments and American Depositary Receipts (ADR's); and mutual funds. The following investments are prohibited: Short sales, put and call options, margin purchases, commodities futures, direct investment in tangible assets, private placements, venture capital financing, and securities of the Investment Manager or its parent corporation including proprietary mutual funds.

**Interest Rate Risk** - In order to limit interest rate risk, the Endowment Fund investment policy stipulates various maturity limits. Commercial paper maturities may not exceed 270 days, bankers acceptances are limited to 180 day maturities, and the average weighted maturity of the fixed income portfolio shall fall within a range of 3-10 years.

**Concentration of Credit Risk** – The Delta College Endowment Fund Investment and Distribution Policy limits the investment in individual securities of any one issuer to 5% of the market value of the assets of The Fund, with a maximum of 12% invested in foreign equities and ADR's. The 5% limit does not apply to money market funds, mutual funds, or obligations of the United States federal government or its agencies. As of June 30, 2005, the Endowment Fund did not hold any securities of any one issuer in excess of these limits.

**Custodial Credit Risk** - The Endowment Fund investment policy does not address the issue of custody. The Endowment Fund investments are held by Smith Barney as custodian, and are listed under the account name Delta College Endowment Fund. In the event that Smith Barney were to become insolvent, the account assets are protected by \$500,000 of coverage through the Securities Investor Protection Corporation (SIPC). Additionally, in the event of a forced liquidation of Citigroup Global Markets, Inc., losses in excess of those covered by SIPC, are covered by supplemental insurance protection subject to an aggregate loss limit of \$600 million maximum for the firm, with a \$1,900,000 cash limit per client. Smith Barney also carries insurance in excess of \$750 million to cover cash and securities held by their firm that may be deemed missing through theft, fire, employee dishonesty, or any unexplained disappearance.

**Foreign Currency Risk** – All foreign investments held by the Endowment Fund are in the form of ADR's and are denominated in U.S. currency.

\* Due to the convertible feature of these investments, they are generally not held to maturity.

**NOTE 3. PLEDGES RECEIVABLE**

As of June 30, 2005 and 2004, donors to the College (including the Delta College Foundation) have made unconditional promises to give (pledges) approximating \$2.4 million and \$1.8 million, respectively. Such pledges are discounted to their present value, assuming their respective terms, at applicable discount rates for total discounts at June 30, 2005 and 2004 of \$107,210 and \$39,789, respectively. Management has also established an allowance for uncollectible pledges in the amount of \$68,170 and \$78,941, respectively, as of June 30, 2005 and 2004. Pledges deemed uncollectible are charged against the allowance in the period that determination is made. At June 30, 2005 and 2004, the collection of pledges receivable, net of discount and allowance, are scheduled as follows:

	2005	2004

**NOTE 5. RECOGNITION OF STATE APPROPRIATIONS**

The College records revenue from state appropriations in accordance with the accounting method described in the annual funding bill passed by the State of Michigan legislation, which provides that state appropriations are recorded as revenue in the period for which they were appropriated. Accordingly, the College recognized 100% of the state's fiscal year 2004-2005 and 2003-2004 appropriations, respectively, as revenue during the years ended June 30, 2005 and 2004. Also, since state appropriations are distributed over an 11-month period, October through August, the College has recorded receivables at June 30, 2005 and 2004, respectively, for the subsequent payments received in July and August totaling \$2,286,662 and \$2,278,031.

Based on past experience, for each of the years ended June 30, 2005 and 2004, the College has designated a portion of its unrestricted net assets equal to the amounts receivable as estimates of the potential contingency in the event that the state were to change its method of distributing state appropriations that would cause the College to experience a permanent deferral or elimination of state appropriation revenue.

**NOTE 6. OPERATING LEASE OBLIGATIONS**

The College leases various training facilities, equipment and vehicles under short-term operating leases, with total lease expense approximating \$368,000 and \$412,000, respectively, for the years ended June 30, 2005 and 2004. At June 30, 2005, the College has noncancellable future lease payments totaling \$186,000, which are all due during the year ending June 30, 2006.

**NOTE 7. RETIREMENT PLANS**

**Defined Benefit Pension Plan – MPSERS**

**Plan Description** – The majority of College employees participate in the Michigan Public School Employees' Retirement System (MPSERS), a statewide multiple employer cost-sharing defined benefit public school employee retirement system governed by the State of Michigan that provides retirement, survivor and disability benefits to plan members and their beneficiaries.

MPSERS provides two plans, the Basic Plan and the Member Investment Plan. An employee who participates in the Basic Plan may retire at age 55 with 30 or more years of credited service or at age 60 with 10 or more years of credited service with a retirement benefit, payable monthly for life, equal to 1-1/2 percent of his or her final average compensation multiplied by the number of years of credited service. Final average compensation is the employee's highest total wages earned during a period of 60 consecutive calendar months.

An employee who participates in the Member Investment Plan (MIP) may retire at any age with 30 years of service, or at age 60 with 5 years of credited service, provided the member has worked through his or her 60<sup>th</sup> birthday and has credited service in each of the five school fiscal years immediately preceding the retirement allowance effective date, with a retirement benefit, payable monthly for life, equal to 1-1/2 percent of the participant's final average compensation multiplied by the number of years of credited service. Final average compensation is the employee's highest total wages earned during a period of 36 consecutive calendar months.

**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 7. RETIREMENT PLANS – Continued**

Benefits under both plans, which are established by state statute, are fully vested upon reaching 10 years of service. Vested employees with less than 30 years of service may retire at age 55 under reduced benefits.

MPSERS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained by writing to MPSERS at 7150 Harris Drive, P.O. Box 30673, Lansing, MI 48909-8103.

**Funding Policy** – Employer contributions to MPSERS result from the effects of implementing the School Finance Reform Act. Under these procedures, each College is required to contribute the full actuarial funding contribution amount to fund pension benefits, plus an additional amount to fund retiree health care benefit amounts on a cash disbursement basis. For the year ended June 30, 2005, the College contributed a fixed rate of 12.99% of covered compensation for the months July through September and 14.87% for the remainder of the fiscal year. Basic plan members make no contributions, but MIP members contribute at rates ranging from 3% to 4.3% of covered compensation.

**Post Retirement Benefits** – Under the MPSERS Act, all retirees participating in MPSERS have the option of continuing health, dental and vision coverage. Retirees having these coverages contribute an amount equivalent to the monthly cost for Part B Medicare and 0-20% of the monthly premium amount for the health, dental, and vision coverages. Required contributions for post-employment health care benefits are included as part of the College's total contribution to MPSERS as discussed above.

The following table discloses pertinent information relative to MPSERS funding for the three-year period beginning July 1, 2001 through June 30, 2005.

	2005	Year Ended June 30, 2004	2003
Funding percentage range	12.99%-14.87%	12.99%-12.99%	12.17%-12.99%
Total College payroll	\$37.5 million	\$36.5 million	\$37.1 million
MPSERS covered compensation	\$28.7 million	\$27.6 million	\$28.6 million
College contributions	\$4,132,000	\$3,584,000	\$3,651,000
Employee MIP contributions	\$640,000	\$598,000	\$617,000

**Defined Contribution Plan – ORP**

As an alternative pension option, the College offers all full-time faculty and full-time salaried administrative, professional and Corporate Services employees the opportunity to participate in an Optional Retirement Plan (ORP) administered by Teachers' Insurance and Annuity Association - College Retirement Equities Fund (TIAA-CREF). Upon eligibility to participate in the ORP, employees have 90 days in which to elect participation in either the ORP or the MPSERS plan. The election becomes irrevocable after the 90-day period.

**NOTES TO FINANCIAL STATEMENTS - Continued**  
**DELTA COLLEGE**  
**JUNE 30, 2005**

**NOTE 7. RETIREMENT PLANS – Continued**

Funding for the plan consists entirely of employer contributions of 10% of each participating employee's includable compensation. Participants are immediately 100% vested in all ORP contributions. Participating employees elect their own allocation of contributions among the available investment vehicles offered by TIAA-CREF. ORP retirement benefits are based on the accumulation of contributions and the related investment income for each participant. Distribution of retirement benefits is available under the ORP when participants attain age 55.

During the years ended June 30, 2005 and 2004, compensation covered under the ORP approximated \$5,972,000 and \$5,943,000, respectively, resulting in contributions by the College of approximately \$597,000 and \$594,000.

**NOTE 8. RISK MANAGEMENT**

The College participates in the Michigan Community College Risk Management Authority (Authority) with other Michigan-based community colleges for claims relating to auto, property and liability. The Authority provides a risk pool program that operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk-sharing management program for losses in excess of member retention amounts up to maximum coverage limits. The College pays an annual premium to the Authority and is responsible for a deductible and all costs, including damages, indemnification, and allocated loss adjustment expenses, for each claim that is within the College's Self-Insured Retention (SIR) limit. The College also participates in the stop loss provision of the plan, which is designed to limit the member's maximum cash payments during a July 1-June 30 year for costs falling within the College's SIR limit. Reinsurance is purchased by the Authority to further limit the risk of loss.

In addition, the College purchases commercial insurance for employee medical benefits and employee injuries (workers' compensation).

**NOTE 9. CONTINGENT LIABILITIES**

The College is aware of potential liabilities involving two large property tax appeals. If the appeals are successful, the College will be required to repay an undeterminable amount of property taxes collected during the past eight years, plus statutory interest. Because the ultimate outcome of these cases is unknown, the College has not recorded a liability in the accompanying financial statements, but as of June 30, 2005, has designated \$8,313,438 of its unrestricted net assets to cover any potential losses resulting from these appeals.

In the normal course of activities, the College is party to various legal actions. The College is of the opinion that the outcome of asserted claims outstanding will not have a material effect on the financial statements.

**NOTE 10. CONTRACTUAL COMMITMENT**

The College has outsourced the management and operational support of its information technology services under a five-year agreement with SunGard Collegis, Inc. The contract period began on November 1, 2001. The current fee schedule, as amended in November 2004, calls for monthly payments ranging from \$147,867 to \$168,306 through October 2006, with a total contractual commitment of \$9,530,551.

**NOTE 11. DELTA COLLEGE FOUNDATION**

The Delta College Foundation (the Foundation) is an independent tax-exempt corporation formed for the purpose of receiving funds for the sole benefit of the College. Contributions received by the Foundation are transferred to the College to be used in the support of the College's educational programs. Such activities include contributing funds to the College's scholarship programs and endowment funds, supplementing or paying for professional development activities of the College's faculty and staff, and transferring donated equipment to the College to be used in general and occupational education programs. The College provides personnel support, supplies and equipment to the Foundation.

Based on the criteria set forth in GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units*, the Foundation is considered a component unit of Delta College. Accordingly, the activity and financial position of the Foundation have been blended with the College's in the accompanying financial statements.

At June 30, 2005 and 2004, the stated value of the net assets of the Foundation approximated \$1,922,000 and \$816,000, respectively, which included pledges receivable, net of an allowance for uncollectible pledges, of approximately \$1,299,000 and \$219,000, respectively. Grants and distributions to or on behalf of the College approximated \$1,417,000 and \$1,203,000, respectively, for the years ending June 30, 2005 and 2004.

The Delta College Foundation issues a financial report that includes financial statements and supplementary information. That report may be obtained by writing to Delta College Foundation at 1961 Delta Road, University Center, MI 48710.

**NOTE 12. ENDOWMENT SPENDING RATE POLICY**

If a donor has not provided specific instructions, the Board of Trustees is authorized to spend the net appreciation (realized and unrealized) of the investments of endowment funds. Any net appreciation that is distributed is required to be spent for the purposes for which the endowment was established. Under the policy established by the Board, four percent of the previous five-year quarterly moving average market value of each individual endowment is authorized to be distributed annually, although actual distribution is limited to not decrease the individual endowment balances below that of the cumulative original value of the endowment contributions.

Independent Auditors' Report on Compliance and on Internal Control  
Over Financial Reporting Based on an Audit of Financial Statements  
Performed in Accordance with *Government Auditing Standards*

Board of Trustees  
Delta College  
University Center, Michigan

We have audited the financial statements of Delta College as of and for the year ended June 30, 2005, and have issued our report thereon dated October 7, 2005. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether Delta College's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered Delta College's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinion on the general purpose financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

This report is intended solely for the information and use of the Board of Trustees, management, federal awarding agencies, and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Independent Auditors' Report on Compliance with Requirements  
Applicable to Each Major Program and Internal Control Over  
Compliance in Accordance with OMB Circular A-133

Board of Trustees  
Delta College  
University Center, Michigan

Compliance

We have audited the compliance of Delta College (College) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement* that are applicable to each of its major federal programs for the year ended June 30, 2005. The College's major federal programs are identified in the summary of auditors results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the College's management. Our responsibility is to express an opinion on the College's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the College's compliance with those requirements.

In our opinion Delta College complied, in all material respects, with the requirements referred to above that are applicable to each of its major federal programs for the year ended June 30, 2005.

### Internal Control Over Compliance

The management of the College is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the College's internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133.

Our consideration of the internal control over compliance would not necessarily disclose all matters in the internal control that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that noncompliance with applicable requirements of laws, regulations, contracts and grants that would be material in relation to a major federal program being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over compliance and its operation that we consider to be material weaknesses.

### Schedule of Expenditures of Federal Awards

We have audited the financial statements of Delta College as of and for the year ended June 30, 2005, and have issued our report thereon dated October 7, 2005. Our audit was performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

This report is intended solely for the information of the Board of Trustees, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

## Notes to Schedule of Expenditures of Federal Awards

Year ended June 30, 2005

Note 1. Significant Accounting Policies

The accompanying schedule of expenditures of federal awards includes the federal grant activity of Delta College (the "College") and is presented on the same basis of accounting as the basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

Note 2. Noncash Assistance

The value of the noncash assistance received was determined in accordance with the provisions of OMB Circular A-133.

Summary of Noncash Assistance

The grantee received the following noncash assistance during the year ended June 30, 2005 that is not included on the schedule of expenditures of federal awards:

<b>Federal Program</b>	<b>CFDA Number</b>	<b>Amount</b>
<b>Student Financial Assistance Cluster</b>		
Federal Family Education Loans:	84.032	
Stafford subsidized		\$1,512,185
Stafford unsubsidized		1,617,603

### Note 4. Student Financial Aid

As allowable and in accordance with federal regulation issued by the U.S. Department of Education, the College is carrying forward \$0 of its 2004-2005 Federal Work Study (84.033) Program award to the 2005-2006 award year. The College spent \$28,500 of its 2003-2004 Federal Work Study (84.033) awards during the 2004-2005 award year. As allowable, the College transferred \$40,016 of its Federal Work Study (84.033) Program award to Federal Supplemental Education Opportunity Grant (84.007). Also, the College carried back and spent \$13,063 of the 2005-2006 Federal Supplemental Education Opportunity Grant (84.077) in 2004-2005. The College received \$39,652 as an administrative cost allowance for Federal Work Study Program.

### Note 5. Substance Abuse Grant Reporting Requirements

The State of Michigan Department of Community Health (the "State") requires that certain schedules be presented in reports related to audits of substance abuse grants. The following schedule of Center for Substance Abuse Services ("CSAS") budgeted, reported, and actual amounts required by the State of Michigan Department of Community Health is presented for two substance abuse grants received by the College. Both grants are fixed unit rate contracts, whereby the amount of funds received is fixed based on number of procedures performed and also limited to a certain dollar amount in total.

CSAS funding includes Local Alcohol Tax Funds at a rate of approximately 20 percent and the expenditure of such funds is included within the state expenditures column on the accompanying schedule of expenditures of federal awards.

For the award period October 1, 2003 to September 30, 2004, the budgeted, reported, and actual units provided for from July 1, 2004 through September 30, 2004, were as follows:

	<b>Information Dissemination</b>	<b>Education Activities</b>	<b>Community- Based Activities</b>

No matters were reported.

Board of Trustees  
Delta College  
University Center, Michigan

We have audited the financial statements of Delta College for the year ended June 30, 2005, and have issued our report thereon dated October 7, 2005.

In planning and performing our audit of the financial statements of Delta College for the year ended June 30, 2005, we considered its internal controls to determine our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on the internal controls. Our consideration of the internal controls would not necessarily disclose all matters in the internal controls that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that errors or irregularities in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, we noted no matters involving internal control components and their operation that we consider to be material weaknesses as defined above.

This report is intended solely for the information and use of the Board of Trustees and management and is not intended to be and should not be used by anyone other than these specified parties.
